

**Grace Fellowship Church and School**  
**1400 Dogwood Road**  
**Snellville, Georgia**

Architect: TMA Architects  
Delivery Method: Design Builder  
Building Size: 33,000 Square Feet  
Planned Use: Religious Facility  
Construction: Conventional Steel  
Completion Date: October, 2000  
Reference: Buddy Hoffman, Pastor  
770-925-8673

Details: The construction includes a beautiful glue-lam sanctuary, fellowship hall, administrative offices, and classrooms. The interior offers many interesting design features created by the church members. Upstairs you'll find an interior classroom made to feel like a front porch while the walls in the downstairs education area are lined with scenes from the Middle Ages.

According to Mart Winkle, "I have shared with Pastor Buddy Hoffman that when we build again we need to have Group VI and John back as superintendent. John is a good superintendent, he solved every problem that arose while we were under construction and he is true to his word. We enjoyed working with you and your team at Group VI."
