Dear Mr. Pace,

I have been a tenant in this building for almost 5 years during which time your company has provided property management services. I have always been very satisfied with the level of service and attention to detail that your company and employees have displayed. When I have experienced any type of problem, all it has taken is a single phone call or e-mail to Bruce Coleman or David Ladd and they attend to it quickly usually resolving the problem with only one visit. In addition David is very proactive in stopping by on a weekly basis to check on us to be sure everything is working smoothly. He is attentive to our requests and very efficient in taking care of any issues that arise.

It has been a pleasure working with your company and I look forward to continuing that relationship for years to come.

Sincerely,

Spencer I. Rozin, MD FACP
